

2010 TOP YIELD CONTEST

Enter To Win A Best Buy LCD 40 inch TV

Contact your local Centra Sota Agronomist to come out and weigh your field corn for a chance to win with the highest recorded yield. All results will be posted for local standings at the location and will be used in side by side evaluations of the following company hybrids. (Monsanto, Syngenta, Croplan Genetics)

We will **not** accept combine yield monitor results.

RULES are SIMPLE

To participate we need at least 500 feet of row length to measure with the weigh wagon. The hybrids weighed must have been purchased by Centra Sota Cooperative customers. In case of a yield tie we will draw to win between the top yielding entries at the location. One TV will be given away at each location for Centra Sota Cooperative. One TV will be given away for the Top Yield Irrigated entry for the entire company.

Contest Ends November 1, 2010.

Contact your local Centra Sota Agronomist to set up your corn yield check.
We have weigh wagons waiting.
