

Introducing the RRXtend Spray App

RRXtend Spray App

The RRXtend Spray App provides farmers and applicators with a convenient and easy-to-use tool to support an improved spray decision process and an even more successful 2018 season.

Forecasts >> Provide field-level, location-specific hourly forecasts, including the following:

- Wind speed and direction are forecast at approximately 3 ft above the ground for more application-relevant forecasting.
- Inversion risk forecast to show the probability (by percentage) of an inversion occurring at a particular location and forecast hour.
- Temperature and relative humidity.

Forecasts are developed using publicly available weather data from the U.S. National Oceanic and Atmospheric Administration (NOAA) and unique models by The Climate Corporation.

Record Keeping >> Help applicators comply with and streamline mandatory federal dicamba record-keeping requirements with the following features:

- Digitally complete application records with greater ease of use, including smartfill capabilities.
- Create a one-time profile, and this information will autopopulate into future records.
- Save and export field records. All information entered is stored within the phone.

Resources >> Access to helpful information all in one place, at your fingertips:

- Links to several key resources including training information, product labels and approved tank mixes and nozzles.
- Educational videos including insights on the methods and models utilized in the inversion risk forecast tool.

Available Now >>

Message and Data Rates May Apply.

Forecasts are for planning purposes only and are not a substitute for checking actual weather conditions at the location at the time of application and following all label instructions. Due to model variances, inversion risk is rounded to the nearest 5 percent.

XtendiMax® herbicide with VaporGrip® Technology is part of the Roundup Ready® Xtend Crop System and is a restricted use pesticide for retail sale to and use only by Certified Applicators or persons under their direct supervision.
