

KNOW YOUR SOIL. GROW WITH CONFIDENCE.

Soil health testing through Centra Sota Cooperative and AgSource Labs helps make informed decisions for healthier soil and stronger yields.

WHAT TESTS ARE INCLUDED?

							
Soil pH	Texture	Soil Organic Carbon	Soil Respiration	Labile Carbon	Bioavailable Nitrogen	Wet Aggregate Stability	Bulk Density
Acidity or alkalinity	Soil texture	Organic matter	Microbial activity	Active carbon	Crop nitrogen	Soil structure	Compaction level

ADDITIONAL SOIL HEALTH ANALYSIS INCLUDED

In Addition To The Above CEMA 216 Requirements You Will Also Receive:

- **Fertility Analysis:** Soil pH, Buffer pH, Soluble Salts, Organic Matter, Phosphorus, Potassium, Magnesium, Calcium, Sodium, Nitrate, Sulfur, Zinc, Manganese, Copper, Iron, Boron, Calculated CEC and Percent Base Saturation
- **Soil Health Assessment:** Water soluble Nitrate-N and Ammoniacal-N, Water Soluble Organic C:N Ratio, Water Saturation%, and Soil Health Score
- **Haney H3A Extraction:** Orthophosphate-P, Phosphorus, Potassium, Calcium, Iron, and Aluminum.

\$198 PER SAMPLE

Price Includes:

- CEMA 216 Analysis
- Fertility Analysis
- Soil Health Analysis
- Soil Health Assessment
- Haney H3A Extraction

Additional Service Fees Will Apply For In-Field Soil Health Assessments, NRCS Paperwork, Milage, Etc. Contact Your Local Centra Sota Environmental Services Team For More Information.
