

WATER MANAGEMENT PROGRAM

At Centra Sota, we offer a completely hands-off management program for moisture probes, including all spring preparation, installation, removal, in-season service, and off-season storage.

SERVICES

- Irrigation Uniformity Testing
- Variable Rate Irrigation/Nitrogen Prescriptions
- Soil Moisture Probes - Sales & Servicing
- Irrigation Watering Recommendations
- NRCS Irrigation Water Management Plan Support & Completion
- MN DNR Irrigation Water Management Support

AQUASPY FARM MANAGEMENT SYSTEM

Providing guidance for successful and sustainable farming with the first continuous in-ground monitoring system that aligns with the 4R Nutrient Stewardship model

Save water and keep crops healthy by utilizing real time data on soil temperature, water usage, nitrate leaching, water infiltration, oxygen, salinity, and more
